

## Germgard<sup>®</sup> LITE

Simple sanitise to  
unlock solution

**Germgard LITE is an access control system that enforces the use of hand sanitiser before gaining entry. Once a user has sanitised their hands with the Bluetooth unit, the door will unlock.**

### Benefits

Promote hygiene  
best practice

Wire-free Bluetooth  
sanitiser unit

Automatic door activation

Easy alternative to  
access control

Suitable to use with  
all sanitising liquids

Energy harvesting  
technology
