Service: Fire Door Supply and Install
Door quantity: 1

Customer requirements:

- Replace a non-compliant doorset

Nina is a visual artist who studied at the Royal College of Art. She has an MA in painting and creates colourful work inspired by the environment.

Out of date front door needed replacing

Adur Homes, Nina's Freeholder, told tenants that because of changes in legislation, their front doors were non-compliant and out of date. So a new fire doorset and installation service needed to be sourced.

The price that the council quoted was deemed too expensive so Adur Homes asked Nina to find a local provider who provided better value for money.

Southwick, East Sussex, where a change in legislation required installation of compliant fire doors

“ A very professional service. Thanks to Fireco, I have a lovely and compliant new fire door. The Engineer did a great job and was quick, knowledgeable and efficient.

Nina Garstang

Fireco provides a professional solution at a competitive price

Nina looked around and found Fireco, who presented a more cost-effective service. “I’d heard of Fireco but I wasn’t aware that they provide fire door installations,” says Nina. “I was impressed with the price and very pleased to use a local company.”

How does Nina rate the service she’s received? “Absolutely excellent, I couldn’t fault it in any way. In my opinion, it looks far superior to a neighbouring fire door provided by another supplier. It’s really good quality and the finish is outstanding.”

Has the council requested that you update the fire door in your building? We have a wide range of fire doors that we can supply and install. Call us on 01273 320650 to see how we can help.

Fire door installations by Fireco are BMTRADA accredited
